Newsletter of Settlers Lifestyle Village

## Village Manager's Weekly Update

**Anzac Day Weekend** – This Sunday & Monday the café will not be open. Reception will not be manned on Sunday however as normal the Duty Nurse will be here. Monday, reception will be manned as normal. Don't forget the café will also be open for the first time on Saturday this week so do come along and enjoy a coffee and snack with friends and family.

There will be no shopping bus next Monday due to the public holiday but we will be run a special trip on Wednesday 28<sup>th</sup> April. It will leave Settlers at 10.30am and then pick up at the mall for the return trip at 11.45am.

**Travel Bubble** Further to the opening of the Australian/New Zealand Travel bubble we wanted to put in writing how we see this impacting the village specifically in relation to visitors to the village and residents travelling. We appreciate that this step forward is a positive one from the viewpoint of moving towards a more 'life as normal', however we do want to maintain caution and awareness around anything that could have a negative effect on the village. Both the New Zealand Government and the Australian Government have deemed it now safe to travel between the countries without the need to isolate. We do not believe that we could realistically object to this and therefore will allow visitors from Australia who have travelled under this new 'bubble' to visit/stay in the village.

We do want to stress though that all visitors who are going to be staying are recorded at reception as is now current practice and we are very focused on making sure we have noted the origin of the visitor and the flight number of the plane, this will be particularly important if we do experience any community outbreaks.

We also want to remind residents that if you are going to be away from the village (overnight etc) then please do let us know at reception. This is recorded so that if there is an event at the village, we know that you are not here so will not be looking for you. Again, considering the potential travel to Australia we will keep details of where you are going and for how long so again if there is a community outbreak, we have the details on file. If you do decide to travel, please make sure that you have a plan to be able to manage if the borders suddenly close on either side. This may require additional funds or a place to stay.

Finally, as with all times, if you or your visitors show any signs of COVID 19 or are feeling unwell then please stay away from the community areas, get a COVID test and self-isolate until the test is returned as negative.

**Fire Alarm System Testing** – this is progressing well, and we have included the full schedule below again as this moves into the coming week. As advised already, this is a Building Warrant of Fitness requirement and **involves accessing all residential units** and common areas within the complex. **The contractor will not be accompanied by staff.**

**Please see below schedule for the buildings - we cannot be specific on timings, so please make sure that you are home on the day if you want to be present when the contractor enters your unit.**

20 <sup>th</sup> April	21 <sup>st</sup> April	22 <sup>nd</sup> April	23 <sup>rd</sup> April	27 <sup>th</sup> April	28 <sup>th</sup> April
Dobbyn Building Lucas Building	Eskdale Building Foley Building Greenfield Building	Airborne Building Bush Building Clemow Building Garden Shed	Hellyers Building Ingham Building	Joseph Building Kaipatiki Building	Massey Building Nautilus Building Orchard Building

**Telephone system** – As advised last week we are about to upgrade our telephone system. This has now been booked in for the 27<sup>th</sup> of April at 10.00am. The impact of this cutover is that we will have no telephone incoming or outgoing for the period of the process, this can be for up to an hour but hopefully not. During this time the emergency phones in the lifts will also be down, however the bell alarm will still be audible if used.

**Mother's Day bookings** are beginning to pick up now for Tui Café so if you are interested in making a booking then do not leave it too late as we will need to close off once all the tables are booked in the dining area.

**New role commencing at Settlers.** I am pleased to advise that we have created a new role to help support the nursing department and the community. The role is a Health and Well Being Attendant, the role will operate Monday to Friday in the afternoon between 12.30-16.30 and the purpose is to assist the Registered Nurse to deliver Quality Service to the Residents. I am even more excited that we have filled the role internally and the lovely Sandy from housekeeping has been appointed. Sandy will operate under both departments carrying out housekeeping duties in the morning with Bev and the team and then a quick change after Lunch to work with Sue and the team. Please join me in congratulating Sandy on her successful appointment.

## Hello from the Nurses Niche

Hi everyone,

By the time you read this, a good number of you will have received your flu vaccinations from Phil Tait and his team from North Cross Pharmacy. Well done to you all and those of you that have already had it or are booked in with your GPs. The more people that have the vaccinations, the less likely we all are to get sick. I am sure you are all aware that vaccinations cannot 100% guarantee you won't get sick with influenza but they increase your immunity against it and also if you do get it you will not be as sick. It helps to keep communities healthier all round, so well worth it.

I thought I would get back to some fun facts this week. The topic this week is hair and I have found some quite interesting facts:

- Hair is made mostly of keratin, the same protein as animals horns, hooves, claws, feathers and beaks are made of!
- When wet a strand of hair can stretch an additional 30% of its original length.
- A stand of hair contains information about everything that has ever been in your blood stream, including drugs and is one of the most commonly used types of forensic evidence.
- Hair grows slightly faster in warm weather, because heat stimulates circulation and encourages hair growth.
- Your hair is actually dead apart from the part still inside the epidermis (outer layer of skin) of your scalp.
- The most common hair colour is black. Red is the rarest with only 1% of the world population having red hair. Approximately 2% of the world's population has blonde hair.
- On average you shed around 50-150 strands of hair a day.
- Hair is the fastest growing tissue in the body aside from bone marrow.
- A new hair begins to grow as soon as it is plucked from its follicle.
- Hair can grow anywhere on the human body with the exception of the palms of hands, soles of feet, eyelids, lips and mucous membranes.
- Each strand of hair can support up to 100grams in weight. Multiply that by the average 100 000 to 150 000 strands on each head and your entire head of hair could support the weight equivalent to two elephants!!

Some fascinating information here!

On another note North Point Medical Centre will be closed for an extended ANZAC break. They will be closed from Thursday 22/04/2021 and will be re-opening Tuesday 27/04/2021. If you have any concerns over this break they have suggested to contact Healthline or go to the local Accident and Emergency clinic for urgent assistance.

Take care everyone.

## FRIENDS AND NEIGHBOURS

There were two scenes to gladden the eyes over in the Lodge this week! Number one was the excellent display on the stage in preparation for Anzac Day. Once again we have Tony Gyde to thank for using his talents to such good effect. He definitely has the artistic touch!

Number two was the Tui Cafe cabinets full of tempting goodies on a Monday! Our grandchildren were particularly pleased! It is always lovely to walk into the dining area and see it buzzing with people socialising while enjoying coffee and cake! Don't worry about the 'Settlers' Spread'! There is always the gym if you feel guilty! *Neighbourly Group*

Performances such as this provide an opportunity for them to present their work to a wider audience. Please come along to enjoy the event, while helping to support these young musicians.

## OUTDOOR BOWLS.

On Monday 12<sup>th</sup> April 3 teams from Settlers travelled to Poynton for an inter-village fixture. Fortunately, North Shore's unpredictable weather pattern did not disrupt the day's play with anything other

than an occasional light drizzle.

9 games were played overall and the end of the contest resulted in 7 wins and 1 draw for Settlers to the opposition's 1 win and 1 draw. This tally clearly posted the best ever winning margin against Poynton. Needless to say, the Poynton players were the friendly, cheerful and sporting hosts of always.

Reg Kendall (s) – Anna Morris – Kevin Covacich, along with Des Webb (s) – Keith Tolmie – Wally Lindsay were the two teams that recorded the maximum number of wins. Special mention must be made of Wally who, as a brand new bowler, was having his first taste of inter-village competition.

## OUTDOOR BOWLS

Last Monday, 19<sup>th</sup> April, two teams from Settlers travelled to Fairview to help them – along with 6 other villages – celebrate a special occasion. This was the inaugural tournament for what Fairview hopes will become an annual event. Once again their new green was on show and its excellent playing surface encouraged keen competition. Playing standards were high as each of the 8 participating villages attempted to ensure that their name was the first one to be engraved on the trophy.

Greenwich Gardens, whose teams were comprised of 6 active bowlers from the Mairangi Club, managed to achieve this with 5 wins and 1 draw from the six possible results. Fairview, with a far fewer pool of club players to draw on, filled a very creditable second place.

Congratulations to sister village Fairview on what was a very friendly and impeccably organised day. Thanks also to Fairview's owners and management who, as well as providing a fully catered event, also undertook its sponsorship. Taken all round this was a memorable occasion and one which was particularly enjoyed by our players.

Settlers' representatives on the day were:

Reg Kendall (s) – Bob McNab – Carolyn Whitehead AND Des Webb (s) – Peter Oden – John Bruce.

## Mystery Tours

The next three trip notices will be posted on the notice board on Saturday morning. Please carefully read the dates and location information on each sheet before choosing **one** of the three trips you would like to go on then add your name to the appropriate list. Enjoy your day out. *Neighbourly Group.*

## Poets Corner

Within our Village we have a very humble poet who's hidden his light  
under a bushel for far too long. Now he's been discovered. This is  
Bruce's corner...

### ONE MOMENTS SILENCE PLEASE

"Mummy, what does war mean?" Billy asked his Mum.  
"Dad can explain that, better than me," she answered to her son.  
But by the time Dad got home, Billy's mind was miles away,  
But the answer to that question, is the reason for **Anzac Day**.

Though constantly in this crazy world, wartime still exists.  
and young men in New Zealand are still prepared to enlist.  
Is it hatred of the enemy, that causes all the wars?  
Or is it instinct ingrained in mankind - supremacy is now law?

Pause for a moment, if you will, and imagine you're in the front line.  
You have an 'enemy' in your rifle sights, he's yours to kill, that's fine.  
You've been trained to pull that trigger now, to end that human's life.  
Regardless that, your life from now, will suffer emotional strife.

Thousands of New Zealanders have experienced in years passed  
and have spent their remaining year in torment up till the last.  
and hundreds of others unfortunately, brave, but lost their lives  
those who, we still honour today, on April twenty-five.

While those memories stem from Gallipoli six decades ago.  
This memory includes all of those, who have earned our deep sorrow.  
Modern warfare now includes women as well as men.  
Now, and for years to come,

### WE WILL REMEMBER THEM
