

The Village News

From the Manager's Desk

Our Gardeners' Nursery

Our gardeners have their own nursery around the back of the Lodge, by the red skip. Our team sometimes looks after residents' plants and they relocate plants from villa refurbishments in this area, etc.

Unfortunately, a large and expensive red pot has been missing from this area over the last weekend. This pot is from a set of 2 and belongs to Fairview Care at their entrance. The gardeners were to plant new flowers in those.

This is a reminder that plants and pots in this area are the property of the gardening team or the Village. As usual, if residents are interested in something in this area, please always ask Cait. If you have seen the pot, please contact Cait.

Nurses corner

Hello All!

Welcome back to our Nurses Corner! I've just got back from my week off where my partner Maia, our dog Duckie, and I set off on a week-long journey in our campervan. We initially planned to explore the beauty of Northland, but we heard the roads were a bit challenging, so we made a last

minute decision to journey south of Auckland instead.

Our first day took us from Auckland to Papamoa. We then headed to Lake Taupo for a couple of days. Even though it was chilly, seeing the Huka Falls and the geothermal pools we found made up for it. We then moved on to Napier, where we enjoyed cloudless skies and pleasant 18-degree weather for both days. We had done an early morning walk up Te Mata peak to watch a stunning sunrise, and then also visited the Elephant Hill winery which was a great experience.

The final part of our trip led us to Rotorua. We took a nighttime walk through the redwood trees, with beautiful light displays and sky bridges throughout the forest which was really a highlight of the trip. Even though our journey turned out differently from our initial plan, it was still quite the adventure. Both Duckie and Maia thoroughly enjoyed it.

Residents' Notices

Blocked Access

We live at the end of *one of the village streets* and from time to time we find that someone has parked in our street opposite our garage and we are unable to get our car out. Sometimes it is a contractor and sometimes it is a visitor to a neighbour. We should not have to door knock around our neighbours to find out who owns the vehicle.

The streets here are narrow and there is little or no room for parking in the street. Please could you ask your visitors to park on the main drive and walk up to your villa if they can't park in your drive. It is **not all right** to block other people's access.

Gareth's Puzzle

Last week's puzzle asks for a fourth to add to the other three, and why?

Garbage 25% , ABBA 50%, The Corrs 75% , ?????????? ??%.

And the answer is they are all 4-piece music groups, and the percentage is the percentage of females in the group. E.g. Abba 2 out of 4 - 50%. And possible answers are the Bangles or the Shirelles - groups with just 4 females.

This week's puzzle is similar. Please give a fourth item and why?

Journey , Heuretics , Minutest , ??????????

Disposal of Unwanted Medicines Properly

Old medicines lying around the home 'just in case' are dangerous:

- If taken when they have expired
- If taken but are not prescribed for you
- If in reach of children'

The D.U.M.P. Project provides the safest and easiest way to dispose of unwanted and out-of-date medicines. The Project enables consumers to return unwanted and out-of-date medicines to any pharmacy – anytime. By returning expired and unwanted medicines to your local pharmacy, you can make your home a safer place, help safeguard your community and protect the environment.

Think before you throw

Unwanted medicines that are dumped into the toilet, tipped down the sink or put out with the rubbish can seriously harm the environment.

Don't flush medicines down the toilet.

Sewerage plants can't treat all chemicals in waste water, resulting in contamination of waterways.

Don't pour medicines down the sink.

Household medicines contain highly soluble chemicals which when entered into water systems can harm aquatic life.

Don't throw medicines into the garbage bin.

Household medicines disposed of this way end up in exposed landfill sites.

An anxious young mother was continually summoning the family doctor to investigate what usually turned out to be imaginary symptoms. One night the telephone roused him from his bed. "Please come at once doctor," gasped the young woman's voice, "It's my little boy----"
"Does he feel ill?" yawned the doctor. "No, that's the odd thing. But I took his temperature as usual --- and it's 125!" "In that case madam," growled the doctor, "I suggest you call the fire brigade."
